Art Unit: 2816

1. The response filed on 5/4/05 has been received and entered in the case.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by applicant's admitted prior art Fig. 2.

See paragraph two of the previous office action for the details of this rejection.

4. Claim 7 is allowed.

Claims 2-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Applicant's arguments filed on 5/4/05 have been fully considered but they are not persuasive.

The argument that "the prior art structure has a completely different and non-equivalent structure" is not persuasive, i.e., both the invention and the prior art have a NAND gate which receives an input signal and a POR signal, and which outputs a

Art Unit: 2816

signal to a pull-down NFET connected between the input of the NAND gate and ground. Thus, the assertion that "the prior art structure has a completely different and non-equivalent structure" is not correct.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth B. Wells whose telephone number is (571)272-1757. The examiner
